Mr. Jacques Tremblay  
Lubri-Lab Inc.  
1540 de Coulomb  
Boucherville QC J4B 8A3

Sir,

For the past year we have been using your additives in our eight acetylene compressors. Prior to this we had to recondition our compressors after approximately 2 500 hours because acetone was carried along by the acetylene into the compressors. By adding your oil additives, we establish that the same compressors have trouble-free operation even after 7 500 hours.

This is to our utmost satisfaction because our maintenance costs are greatly reduced. We thank you for the attention and time you have taken to resolve this problem.

Thank you.

A handwritten signature in black ink, which appears to read "Clement Lemire". The signature is written in a cursive style with a large, prominent initial 'C'.
